Teufel

Every Tone a Work of Art

The STEREO L 2 floorstanding streaming speakers

Teufel's STEREO L 2 brings together classic HIFI virtues with modern digital amplifier technology and Wi-Fi streaming.

Berlin, June 4th, 2024 – **Unpack, plug in, and stream your favorite music in just a few minutes - Wi-Fi streaming has never been easier. The STEREO L 2 prove how good they can sound with their high-precision coaxial driver design, and three powerful wok-shaped woofers. And last but not least, these active floorstanders feature clear, minimalistic design made of high-quality materials.**

Quick facts:

- premium-class active Wi-Fi streaming speakers with timeless modern design and shimmering stereo audio for all genres
- elite acoustics: 3-way system with SCA coaxial driver design for astounding sense of space, optimized with three long-throw wok woofers made of kevlar for tight mids and voluminous bass
- built-in 190 watt amplifiers in both speakers with class-D power amplifiers for the ultimate in power handling and high performance reserves

- the two speakers pair wirelessly, wired connection also possible
- Wi-Fi music streaming with Airplay 2, Chromecast, Spotify Connect, TuneIn
- Bluetooth for direct streaming of any audio content from mobile devices
- Connectivity: RCA input for compatibility with all modern devices such as record player; optical digital input for lip-synched TV audio, LAN connection (RJ45, Ethernet) for wired playback
- Teufel Home App for setup & control - equalizer, presets & TuneIn Internet radio
- control panel on primary speaker that lights up when you come near for key functions such as volume, play/pause, station buttons for TuneIn radio stations or Spotify playlists
- FSC® certified wood cabinet, recycled fabric covers, varnish finished surfaces
- available for order now in black and white at a price of 1,999.99 euros from the [Teufel Webshop](#)

HIFI Meets High Tech

Floorstanding speakers offer lots of volume and plenty of space for dedicated tweeter, midrange driver, and woofers. And the STEREO L 2 streaming floorstanders are no exception. The tweeter and midrange driver are fused into an innovative component known as a coaxial chassis. The tweeter is nested into the middle of the midrange driver at the top of the speaker. This means nearly every frequency the human ear can localize sound like they originate from the same source. That means the STEREO L 2 come very close to providing point-source audio, meaning the sound is more realistic and precise than that of a fully separated tweeter/midrange driver combination. Bass tones are produced by a set of three massive wok-shaped bass diaphragms. Each speaker has three class-D power amplifiers for a total power capacity of 190 watts RMS per speaker. That also means each speaker needs to be plugged in separately, which provides the added benefit that no cable is needed to connect the two speakers to each other. This means the speakers are highly flexible in where they can be placed.

Stream on!

With direct support for Apple Airplay 2 and Google Chromecast, all modern smart phones and tablets can stream music to the STEREO L 2. This makes multiroom streaming with compatible speakers into child's play, much the same as the [Teufel MOTIV® HOME](#) and [Teufel STEREO M 2](#). In addition to Airplay 2 and Chromecast, these speakers allow direct playback from the Spotify app and can receive a nearly endless selection of radio stations from TuneIn internet radio service. No Wi-Fi? No Problem. The STEREO L 2 can also be integrated into the home network using a LAN cable. And in any case, Bluetooth is always available to transmit audio from any app you may use. Bluetooth is also convenient to provide control over music to guests who may not have the password to your Wi-Fi network.

Full Control

The free Teufel Home App can be used to set up the STEREO L 2. The app also offers a 3-band equalizer, left-right balance control, and timers for standby and auto-off. You can also use it to set the three preset buttons on the top of the primary speakers with TuneIn stations or Spotify content.. That way, you only need a single touch of the finger to start your favorite station or playlist. The control elements, which light up when you come near, can also control playback, volume, and source selection.

Available in Two Colors

The STEREO L 2 are available for order now at a price of 1,999.99 euros from the [Teufel Webshop](#). The varnish finish on the speakers is available in black or white, and the speakers come with magnetic speaker grilles made of recycled fabric.
