The STEREO M 2 combines HIFI and Streaming

STEREO M 2 premium active bookshelf speakers stream using Airplay 2, Chromecast and directly from Spotify.

Berlin, January 16, 2024 – **Modern streaming technology meets classic HIFI values in the STEREO M 2. The two 3-way speakers pair with one another wirelessly and can receive music via Airplay 2, Chromecast, or directly from Spotify. Radio fans can choose from thousands of stations on TuneIn Internet radio.**

Quick facts:

- Premium class active bookshelf streaming speakers with outstanding stereo sound for every genre of music as well as movies and games
- Stream using Airplay 2, Chromecast, and Spotify Connect
- TuneIn Internet radio with thousands of stations available in the Teufel Home App
- Bluetooth for direct playback from all devices even without network access
- 3-way system with SCA coaxial chassis for single-point audio source, providing unparalleled

spatiality and a broad sweet spot

- Long-throw Kevlar wok woofers for crisp mids and deep bass with high pulse fidelity
- State-of-the-art DSP technology with 2 x 250 watt Class-D power amplifiers for high power capacity and volumes up to 109 dB SPL
- Inputs: AUX (RCA stereo), Ethernet, Wi-Fi, optical for perfectly synced audio when connected to a TV
- Teufel Home App for additional features such as Internet radio from TuneIn, customizable favorite buttons, audio and system settings
- Wireless pairing between the two speakers for a wider array of placement options
- Multiroom: listen to music in multiple rooms with additional Airplay 2 or Chromecast devices
- Control panel with proximity sensor so the lights turn on and off again automatically
- The STEREO M 2 are available now from the [Teufel Webshop](#) as well as all [Teufel Stores](#)

Coaxial chassis for the ultimate in precision

The STEREO M 2 are outfitted with large wok-shaped bass diaphragms on the bottom and Teufel audio's signature Coaxial Chassis on top. Coaxial design means the midrange driver and tweeter are fused into a single component. That both saves space and enables especially precise playback. Because the trebles and mid-tones originate from the same location, they function sonically as a single-point audio source. Both speakers are also equipped with three digital amplifiers, one per driver for a total performance of 100 watts (RMS). This opulent setup means the STEREO M 2 have no problem filling even large rooms with sound.

Streaming for all!

With AirPlay 2 and Chromecast, the STEREO M 2 support the two most important streaming protocols and can play all content from any Apple or Android device - simultaneous playback can even be extended to additional compatible speakers linked in a multiroom group. In addition, the speakers will be visible directly in the apps of popular streaming service Spotify. TuneIn internet radio rounds out the streaming options with thousands of available stations. In addition to Wi-Fi, the STEREO M 2 are also equipped with Bluetooth 5.0, ideal for devices without network technology.

Smart controls

In addition to using the app, all the most important functions can also be accessed directly on the device. The control panel lights up when something comes close to it and has buttons for source selection as well as three favorites. The favorites can be customized in the Teufel Home App, which allows you to assign them to a Spotify stream or TuneIn radio station. The central wheel is not only volume control, but also play/pause and track skip/back.

Intelligent technology

While they can be used without any wires at all, the STEREO M 2 naturally also provide all the classic input options. The optical input is great for perfectly synced audio from a television. The RCA input allows all other external players to be connected such as a pre-amp or [record player](#). As an alternative to built-in Wi-Fi, the STEREO M 2 also can be integrated into a home network with Ethernet.

Fashion and flexibility

Both of the STEREO M 2's speakers have their own amplifiers, and thus both require AC power supply. But what they don't need is a cable to connect one speaker to the other. "The wireless pairing of the two speakers opens up a new range of placement options," says Dennis Bahrke, Director of Product Marketing & Partnerships at Teufel Audio. The STEREO M 2 also look great in all interiors. And they come with an optional magnetic grille to cover the drivers without obstructing the sound. Both colorways come with a high-quality varnish finish.

Price and availability

The STEREO M 2 are available now in black or white at a price of 999.99 euros for a pair in the Teufel Webshop and all Teufel stores.
