

ULTIMA 25 ACTIVE 2

Legendary sound, endless possibilities

The ULTIMA 25 ACTIVE 2 is the latest edition of the popular speaker classic. It delivers impressive stereo sound for TV, gaming and working from home – entirely without an external amplifier. Equipped with HDMI ARC/CEC, DAB+ digital radio, an FM tuner and high-quality Bluetooth streaming with aptX® and AAC, the ready-to-play all-in-one system combines proven sound with maximum versatility for everyday use, all in the new ULTIMA design.

Berlin, 15 September 2026 – With the ULTIMA 25 ACTIVE 2, Teufel presents the second generation of its active stereo bookshelf speaker system. The all-in-one system requires no external amplifier and covers everything from TV sound and music streaming to gaming and working from home. In addition to HDMI ARC, Bluetooth 5.0 with aptX® and AAC, and an integrated DAB+/FM tuner, the new edition features a design adapted to the new ULTIMA family that integrates seamlessly into modern living spaces.

Concept and Features

An integrated power amplifier with 2 × 50 watts RMS in the main speaker ensures powerful, level-stable playback in living rooms. Connectivity includes HDMI ARC/CEC for direct connection to the TV, an optical digital input, AUX input and an integrated USB-C sound card for use with a PC. The integrated tuner also provides access to noise-free DAB+ digital radio and FM.

Key Features:

- **Integrated system:** Power amplifier with 2 × 50 watts RMS and support for Dolby Digital – no external AV receiver required.
- **Versatile connectivity:** HDMI ARC/CEC, optical digital input, AUX and USB-C sound card.
- **Wireless streaming:** Bluetooth 5.0 with support for Qualcomm aptX® and AAC.
- **Integrated radio tuner:** DAB+ digital radio and FM reception, including station presets.
- **Acoustic concept:** 2-way system with a woven Kevlar midrange driver with phase plug, plus a 25 mm tweeter with waveguide.
- **Functions & operation:** Dimmable OLED display, touch controls on the speaker, remote control, auto-wake-up function and Dynamore® Virtual Center for improved speech intelligibility.
- **Expandable:** Can be wirelessly expanded with a subwoofer and upgraded to a surround system; integrated M6 thread for stands and wall mounts.

Sound with Character: Bass, Dynamics and Precision

In terms of sound, the ULTIMA 25 ACTIVE 2 builds on the series' proven ability to deliver high levels without distortion. The 2-way system combines a woven Kevlar midrange driver with phase plug to minimize phase shifts, with a 25 mm tweeter featuring a waveguide for precise sound localization and spatial imaging. A tuned bass reflex system provides the necessary low-frequency reproduction. The result is dynamic, neutral playback for music, films and games, while integrated Dynamore® Virtual Center technology ensures excellent speech intelligibility.

Ease of Use and Everyday Integration

Via HDMI CEC, the speakers respond directly to the TV's remote control and automatically switch on from standby when a signal is received. Alternatively, they can be controlled using the touch sliders on top of the speaker or the remote control. The dimmable OLED display shows current status information such as the selected source, volume and radio station. The redesigned housing, made from FSC®-certified wood and featuring clean front lines, is available in Night Black and Pure White.

Price and Availability

The ULTIMA 25 ACTIVE 2 is available now in Night Black and Pure White for €549.99 from the Teufel online shop and all Teufel stores. The speakers are also available in bundles.

About Lautsprecher Teufel

Teufel is Europe's largest direct seller of audio products. Its broad range includes home cinema systems, TV sound solutions, multimedia systems, classic hi-fi, headphones, Bluetooth and multiroom speakers. The company was founded in Berlin in 1979 with the development of loudspeaker kits and is now a renowned consumer electronics brand across Europe. In addition to its German webshop, Teufel operates numerous European online shops, making its products available throughout Europe. Since July 2024, Teufel has also been represented in the USA, where it offers selected products in cooperation with Fender.

Since its founding, good sound has always been Teufel's top priority. Countless awards from consumers, the press and online media attest to this success. Teufel products are available exclusively from Teufel and are sold through the Teufel webshop, online marketplaces, the hotline and Teufel brand stores.
