Teufel

Make Sound Your Superpower

Teufel presents the new CAGE PRO gaming headset

The CAGE PRO combines wireless freedom of movement, the finest in audio, crystal clear speech, and superb comfort

Berlin, September 17th, 2024 – Lautsprecher Teufel expands its gaming line with the wireless CAGE PRO HD gaming headset. Thanks to its nearly latency-free wireless signal, and high-precision audio, players can enjoy sound with pinpoint location awareness in virtual 3D spaces. Apart from outstanding audio, it also provides crystal clear speech from its microphone, the ultimate in comfort, and stylish RGB lighting.

Quick facts:

- a wireless HD gaming headset with outstanding sound quality
- supports DTS Headphone:X® v2 for 7.1 Virtual Surround Sound
- studio quality directional HD condenser microphone for crystal clear speaking
- flexible microphone arm with magnetic mount

- customizable brake-light style RGB lighting
- programmable multifunction button, mute button, stepless volume wheel, LED status display for charging and usage modes
- powerful battery for up to 68 hours of playback at medium volume
- ultralight design, thick earpads for strong noise insulation and high comfort even for glasses wearers, fabric interior for comfortable feeling on the skin, ventilation prevents build-up of warm air
- Teufel Audio Center for Windows 10/11 with a wide array of functions including DTS Headphone:X® v2 and equalizer
- wireless connectivity with USB adapter for PC, Mac, and Playstation 4 & 5, as well as Bluetooth for PC, Mac, and mobile devices
- AUX cable for additional connectivity options
- available now from the [Teufel Webshop](#) and all [Teufel Stores](#) at a price of 199.99 euros.

The Best Sound, No Cord!

The cable is always getting in the way! So get rid of it. The included USB dongle for PC, Playstation 4, and Playstation 5 allows for wireless connectivity with no noticeable latency. The headset can also connect using Bluetooth and, if there's no other option, with a cable. But no matter how you connect, the 40-mm Linear HD drivers deliver the finest audio with deep, well-defined bass, crisp mids, and precise trebles.

Precision is key - and doubly so for gaming Gamers need precision. From controls to graphics and sound, it is often a deciding factor. Computer games offer very precise three-dimensional sound - many virtual worlds map every sound with very precise physical modeling. Precision audio means that gamers can now hear the full depth of that 3D sound. And hearing an opponent before you see them can be a huge advantage.

Crystal Clear Communication, Full Control

It is almost as important to be heard as it is to hear properly. Often, cooperative or team games are decided by how effectively a team is able to communicate. The high-quality directional HD condenser microphone means your voice will always sound crystal clear in the chat, or in a video conference in the home office. And if you don't need a microphone, it can simply be removed.

If you don't want to be heard, it takes only the push of a button to mute yourself, and the volume can be controlled with a stepless volume knob. The multifunction button controls the brightness of the LED lighting by default, but can be assigned to any function you like on a PC using the Teufel Audio Center.

Teufel Audio Center is a driver and control app for Windows PCs that can be used to change all ancillary functions and unlock support for DTS Headphone:X® v2 for immersive 7.1-Surround Sound. You can also use it to customize the RGB LEDs.

Comfort and Endurance

A headset should never feel heavy during long gaming sessions. To make these headphones as comfortable as possible, Teufel used extra-soft earpads, which also sit firm and keep outside noise from getting in, while also making sure glasses wearers don't get squeezed uncomfortably. A ventilation system in the earcups keeps heat from building up, avoiding sweaty ears even after particularly long missions..

The built-in batteries deliver enough power for up to 68 hours of playback at medium volume. That means you only need to charge the CAGE PRO every couple of days, and it is ready to go for long gaming sessions any time.

Price and Availability

The CAGE PRO expands Teufel's gaming headset line, and is available now at a price of 199.99 euros from the [Teufel Webshop](#) and in all [Teufel Stores](#). The wired [CAGE](#), [CAGE ONE](#) and [ZOLA](#) models will also remain available.
