

# RAUMFELD

True Wireless High Fidelity

## Quickstart Guide

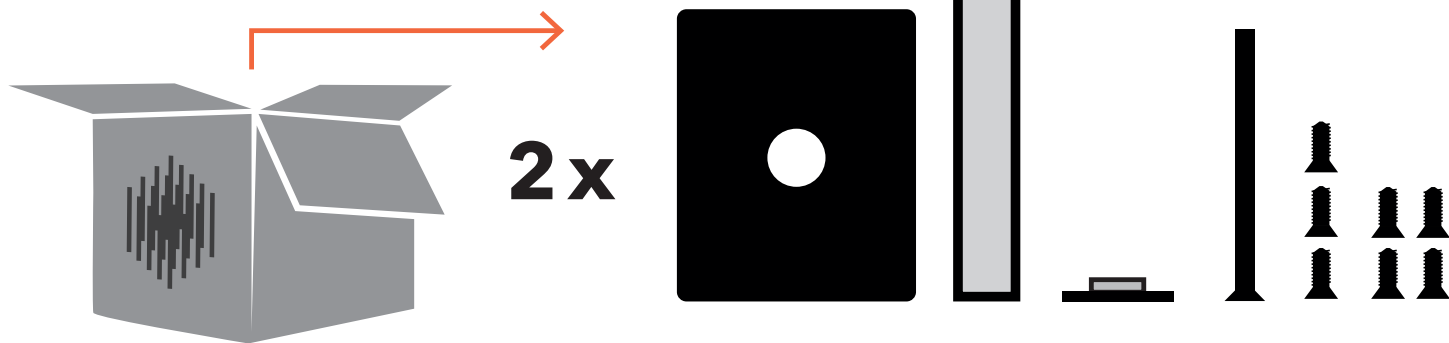

**Raumfeld M Stands**

## 1 Unboxing

# Welcome to Raumfeld

Take a moment to check that all components shown below were included with your delivery.

Before you start using this product, please read the safety instructions carefully.

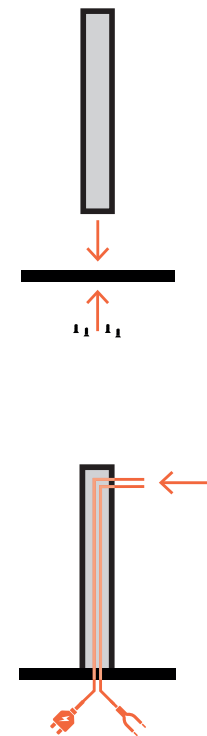

Please keep the box for the duration of the warranty period.

## 2 Assembly

- 1 Begin by attaching the base to the column using the four identical screws included with delivery for this purpose.

**Note:** The cable routing from the top of the base and upper end of the column must be facing the back side of the stand.

- 3 Lay the power and speaker cables through the stand's column and out through the cable opening on the upper side.

- 2 You may now attach the adapter plate for connecting the stand to the bottom of the Raumfeld loudspeaker. Use the screws included with delivery for this purpose.

**Note:** The flat side of the round adapter plate must face the back side of the loudspeaker.

- 4 Now place the loudspeaker with the adapter plate attached onto the stand's column. Use the three screws included with delivery to firmly connect the stand to the loudspeaker.
