CPU	Intel® processor Core™ i7, i5, i3
Memory	4GB or more of RAM

PRODUCT FEATURES

1 LIGHTWEIGHT, PORTABLE DESIGN
Take the DDJ-800 wherever you want thanks to its portable design, which is smaller than the DDJ-1000 by 78% in volume and 1.3 kg in weight.

3 FEEDBACK REDUCER
Pass the mic around with confidence. The DDJ-800 is compatible with the Feedback Reducer feature in rekordbox dj, which automatically lessens the "howling" sound of microphone feedback.

5 AUDIO MIXER FEATURE
You can use the DDJ-800 as a mixer to control the volume of audio input from an external device – even when you're using it on its own – by adjusting the trims, channel faders and EQs. And, when the controller is connected to rekordbox dj, you can use Sound Color FX and Beat FX too.

2 COLOR ON JOG DISPLAY
Keep track of everything thanks to the high-definition LCD screens in the center of each jog wheel which show information such as playback time, BPM, and waveforms.

4 PROFESSIONAL LAYOUT AND FEATURES
Inheriting the layout design of the DDJ-1000, the DDJ-800 offers a host of advanced performance features. Use Feeling Adjust to customise the resistance on the jog wheels, and spice up your sets with the popular Sound Color FX and Beat FX from our DJM mixer series.

6 REKORDBOX DJ LICENSE INCLUDED
Connect the DDJ-800 to your PC/ Mac and use our professional performance application, rekordbox dj, without needing a license key. However, a license is included so you can use the software in standalone mode or with another controller.
