PRODUCT FEATURES

UPDATED DESIGN

The layout of the controls on the DDJ-FLX6-GT is the same as its predecessor, echoing a club-standard CDJ + DJM setup, so you can perform intuitively. However, a new matte gray body and the graphite color of the jog wheels bring a sophisticated look.

MERGE FX

Add drama to your sets and easily mix different styles of music with this innovative feature. No matter what the BPM or key of the next track is, you can create an exciting transition whenever you want.

SUPPORT FOR VARIOUS DJ SOFTWARE APPLICATIONS

VirtualDJ is compatible with the updated unit (license available separately), which also offers free use of the rekordbox Core plan and Serato DJ Pro. License keys for the Serato FX Pack and Pitch 'n Time DJ Expansion Pack are included, and you can use the DDJ-FLX6-GT with TRAKTOR PRO 3 by downloading the TSI file.

JOG CUTTER[^]

Easily make pro-sounding scratch effects, one-handed with Jog Cutter. There are 10 different scratch patterns you can trigger by moving the jog wheel backward and forward with the playhead position pointing at different angles. There's no need to touch the crossfader.

FULL-SIZE JOG WHEELS

Pitch bending and scratching feel natural on the DDJ-FLX6-GT thanks to the large jog wheels. Each one features On Jog Display[^] too, so you can keep an eye on the playhead position, and the new rubberized finish on the outer ring gives you a much better feeling – especially when pitch bending.

SAMPLE SCRATCH[^]

Sample Scratch enables you to sounds you've assigned to the rekordbox sampler and load them onto the decks so you can scratch them. With Serato DJ Pro or VirtualDJ, you can use Scratch Bank to trigger samples by hitting the Performance Pads.
