PRODUCT FEATURES

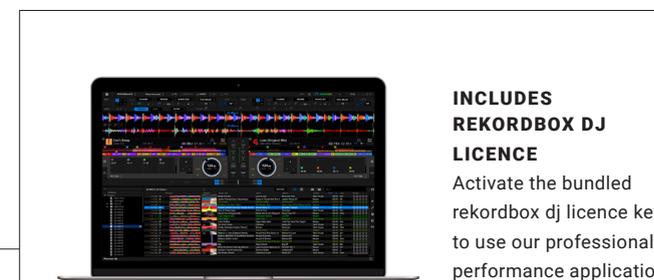

- 1 CLUB-STYLE LAYOUT**
Make the transition from playing at home to performing at parties, bars and eventually clubs. The XDJ-RR inherits its layout design and many of its performance controls, features and FX from our flagship NXS2 set-up.
- 2 EXPORT, LINK EXPORT & PERFORMANCE MODES**
Play rekordbox-analysed tracks directly from USB storage drives or connect your PC/Mac and use rekordbox dj – our professional performance application. Link Export mode is also supported.
- 3 7-INCH COLOUR SCREEN**
Browse and select tracks intuitively using the GUI design and large rotary selector from the CDJ-2000NXS2 multi player. Get a quick visual reference of track information such as playback position, BPM and waveforms.
- 4 PERFORMANCE CONTROL**
Enhance your mixes using dedicated buttons for performance features. Remix tracks live by triggering Hot Cues in fresh sequences, chop loops on the fly with Beat Loop, use Slip Loop to re-introduce tracks in the perfect place, and bounce to the bar of your choice with Beat Jump.
- 5 MIXER SECTION WITH PROFESSIONAL FX**
Perform smooth, precise mixes using the EQs and channel faders with the same curves as those on the DJM-900NXS2 professional club mixer. Spice up your sets with Beat FX and Sound Color FX, also inherited from the flagship mixer.
- 6 LIGHTWEIGHT & PORTABLE**
Take the XDJ-RR wherever you want to practise or perform. It's compact and weighs just 5.2 kg – almost 4 kg less than the XDJ-RX2 – making it perfect for carrying to your next house party or gig.

AUX INPUT

Play music from external sources or mobile devices.

INCLUDES REKORDBOX DJ LICENCE
Activate the bundled rekordbox dj licence key to use our professional performance application.

We've made every effort to show the product accurately, but colours and typography might be different in reality. Features and specifications are correct at the time of printing but are subject to change. Please speak to your Pioneer DJ dealer to make sure the product meets your needs.
