Proper use

The side panels are designed to improve the appearance of the active subwoofer T 1108/1 SW or T 1110/1 SW and they are exclusively intended for downfire operation.

Only use the side panels as described in this user manual. Any other use will be deemed as not in accordance with the instructions and may lead to damage to property or even persons.

The manufacturer accepts no liability for damage caused by improper use.

The side panels are intended for domestic use.

Before mounting the side panels, please read the safety notes and user manual carefully. This is the only way to use all functions safely and reliably.

Keep the enclosed documents in a safe place and also be sure to pass it on to any subsequent owner.

Safety notes

This chapter contains general safety notes which you should always observe to protect yourself and third parties. Also observe the warning notes in each chapter of this user manual.

The isolation pads can produce discolouration on sensitive surfaces.

- On parquet, varnished wood and similar surfaces, you should stick felt gliders to the rubber feet of the subwoofer or put blankets or small carpets under them. This will prevent discolouration of the floor over the long term.

Package contents

2× Side panels

8× Hexagon socket screws

- Check that all items have been delivered and that nothing is damaged. If you find any damage, do not operate the device; instead contact our customer service department (see back side).
- Please keep the packaging for the duration of the warranty period.

Assembly And Setup

1. Unscrew the 4 support feet (1) from the subwoofer.
2. Use 4 hexagon socket screws (2) to mount each side panel (3) on the subwoofer.

NOTICE: The side panels are exclusively intended for downfire operation!
